

Continuum of Care (CoC) Eligible and Ineligible Costs

The Continuum of Care (CoC) Program Interim Rule (24 CFR Part 578) outlines the costs that are eligible under the CoC program. This reference document summarizes the eligible cost guidance from the Rule and augments that information with clarifications from HUD. We will continue to update this document and post it on ARCH's website at www.archconnection.org as we receive additional HUD guidance.

Refer to your CoC project application and CoC contract (Exhibit 1) to identify which of the Budget Line Items (BLI) below are applicable to your project. Only the eligible costs submitted in the CoC project application are allowable.

If you have a question about whether a cost not listed here is eligible, please contact ARCH (Felicia Jackson, felicia@archconnection.org, 334-273-0668. If we don't know the answer, we'll ask HUD.

Program Income can be counted as Match. When using Program Income as Match, on the CoC invoice disbursements journal list the expense under both the Program Income Expended and Match columns.

Match costs must be eligible CoC costs. Sub-recipients may use any CoC-eligible expense as match, regardless of the budget line items a particular project has. For example, a sub-recipient can use security costs as match even if they do not have operating funds in their contract. Projects with Rental Assistance cannot use Operating costs as match because Operating costs are not eligible for reimbursement.

If the agency uses an ICR, it can be charged on match costs as detailed in the ICR section above (leasing costs, rental assistance costs, and contractors must be excluded).

Costs that were incurred outside the contract period are not eligible as match.
