

REMINDER!!!!

Submit Your Letter of Intent to Apply TODAY. FY 2025 HUD CoC NOFO – Required Applicant Documents Attached

CoC Board, Stakeholders and Partners,

Attached are two important documents (PDF) for the FY 2025 HUD Continuum of Care Competition:

- 1. Required Items for All Project Applicants (New and Renewal)**
- 2. FY 2025 NOFO Project Types**

These materials outline the core eligibility standards, required compliance documents, and the full range of allowable project types under this year's NOFO. All agencies planning to apply, whether for renewal or new funding, must review these documents carefully to ensure they meet HUD's minimum requirements and are aligned with the project categories allowed in FY 2025.

LOI instructions have already been distributed, and these attachments should be used to guide agencies as they finalize internal preparation, confirm eligibility, and determine whether their proposed project fits within HUD's expectations for this year.

HUD has issued significant program changes and stricter compliance expectations for FY 2025. Because of the accelerated timeline, please review the attachments promptly and ensure your internal teams are ready to proceed. We will continue distributing additional materials, including regional recommendations and further NOFO guidance, over the next twenty-four hours.

Please monitor your email and the ARCH listserv closely. If you or your partners are not receiving our communications, notify us immediately at info@archconnection.org so we can update our contact list.

Thank you for your continued partnership and timely engagement as we begin the FY 2025 competition process.
